**REMARKS**

A new Replacement Sheet of formal drawings, accompanying the attached Submission, is submitted for this application. If any amendment to the drawings is believed necessary, the Examiner is invited to contact the undersigned representative of the Applicant to discuss the same.

Claim 17 is objected to for the note reason while claims 20, 22 and 28 are rejected under 35 U.S.C. § 112, second paragraph, as being indefinite for the reasons noted in the official action. All of the objected to and rejected claims are accordingly amended, by the above claim amendments, and the presently pending claims are now believed to particularly point out and distinctly claim the subject matter regarded as the invention, thereby overcoming all of the raised § 112, second paragraph, rejections. The entered claim amendments are directed solely at overcoming the raised indefiniteness rejection(s) and are not directed at distinguishing the present invention from the art of record in this case.

The Applicant thanks the Examiner for indicating that claims 17-19, 23, 24, 26 and 29-40 are allowed. In view of the above amendments, it is respectfully submitted that claims 17-40 are all now placed in allowable form. If any further amendment to this application is believed necessary to advance prosecution and place this case in allowable form, the Examiner is courteously solicited to contact the undersigned representative of the Applicant to discuss the same.

In view of the foregoing, it is respectfully submitted that the raised rejection(s) should be withdrawn and this application is now placed in a condition for allowance. Action to that end, in the form of an early Notice of Allowance, is courteously solicited by the Applicant at this time.

The Applicant respectfully requests that any outstanding objection(s) or requirement(s), as to the form of this application, be held in abeyance until allowable subject matter is indicated for this case.
